

## To All TWC Members

During the past month there have been some issues of concern that the BoD needed to address, and so we wanted to inform our members of the decisions that were made to the benefit of our members and the club.

1) Dogs off leash and unsupervised have become a concern for many of our members, especially those with small children. It was important to make sure that we address this issue and so after getting legal advice, the board suggests that members leave their dogs at home, but if a dog is brought to the club, **it must be both on leash and supervised at all times.**

2) The parking area associated with the playing fields to the north of TWC will not be opening. In order to prevent non-TWC members from using our lot **we are asking that all members display either their TWC Parking Permit or Membership Card when parking in our lot.** Hopefully we will then be able to discourage non members from parking in our lot, but we will need everyone's help both in displaying their cards.

3) The city has become quite strict as to where and how garbage and recycling materials will be picked up. **In order to ease our trash concerns, we are asking that members take home their garbage and recyclable materials.**

It's easier for each member to dispose of their own refuse, than for the club to do it.

The BoD is asking for everyone's cooperation so that the club remains an enjoyable place to be.
